Power on/off switch

On board handheld control for speeds, warnings, and timer enable control provides simple and quick sign control.

USB port to connect a computer for programming with the included sign control software for advanced sign control, includes speed limits and warnings, MPH or KMH units, 12 month on/off event timer, stealth mode and more.

Mounting Options:

Hitch mount

Hitch mount bracket comes in 2 pieces for easy handling:

The Upright slips into a standard 2" Reese receptacle. The Sign mount slips in the top of the upright.

Then plug in power and the sign is on that's it!

Power Options:

Accessory Power:

A 20' long power cord with a standard 12VDC vehicle accessory plug on one end and a Screw on sign connector on the other.

Powered Trailer connector

A 5' long power cord with a 6 way round trailer connector plug on one end and a Screw on sign connector on the other.

Battery power

An all aluminum, lockable battery box with battery and smart charger. The box slides in the end of the upright for easy attachment, and connects to the sign with a 4' screw on power cable.
