- Data Logger: Provides speeds/date/time and more in a spreadsheet using a SD card with over 10 years of data storage.
- Solar Panel: Extends time between charging.
- Various speed limit and informational signs

## "Working together for pedestrian safety & traffic management"

**SR Products** has developed the **TRANSPORT** Speed sign by combining engineering & computer technology. This unique product line of 4 state-of-the-art, low cost Radar signs are made in the U.S.A. Our priority and mission was to develop these signs as a dependable tool for all local governments, businesses, special events, constructions sites and the list covers where ever, and when ever you need them. Short time or extended, you will see how versatile these signs are. We are the leaders in the manufacturing and service of these high quality Radar Speed Signs. Very quickly, you will see your traffic control and safety data will indicate improvements at all levels.

All 4 speed signs are easy to use, easy to deploy and all are easy to set up with our software or on board control panel. All it takes is a few seconds and you have customized your Radar sign, quickly and effectively with little if any, down time.

Our Radar speed signs were developed with the feed back loop theory in mind: Provide people with information about their actions and they will make positive reactions. Our speed signs realtime feedback is proven to provide over 10% reduction in average traffic speed with a 60% effective rate in the field of traffic control. **Action, Information, Reduction**

We are proud to bring the you the best of the best with our radar signs.

*From a study in Garden Grove, California. Published by Wired Magazine.*  
"There is a school zone as you drive into Vidalia. As cars come in, drivers see the radar sign and they slow down. Because we don't have to keep an officer posted there all the time now, the signs help solve a manpower issue, which also helps with the budgeting, an important factor, in this economy."

Capt. Randy Clark, Vidalia Police Department, Vidalia Georgia
